# Public Relations Subcommittee

3.31.19

The Public Relations Subcommittee met at 12:16 with 4 addicts present and one addict attending virtually. Minutes were read, corrected and accepted. The first distriabation of the spring meeting lists is available. With Infurmation Technology becoming more of a tool for professional contacts, the PR Subcommittee spent a majority of its' time discussing technical issues. Since so much time was spent discussing technical issues the concept of establishing a separate Information Technology Subcommittee was raised. Your input on this concept is welcome.
